

Adapt-A-Ramp LD5000

adapt · a · ramp™

The LD5000 Ramp makes unloading pickup trucks and trailers Safe & Easy!

The LD5000 is packed with several design features that will help reduce labour hours while taking the worry out of your loading and unloading process. The **LD5000** is easy to use and has the size and stability to provide your workers with increased protection from possible accidents.

This ramp is designed for lighter duty applications ideal for equipment rental companies, motor sport dealerships, small engine repair shops, works departments and other types of small equipment businesses.

The LD5000 will:

Improve Operator Safety
and protect equipment and your customers vehicles?

Speed up your operation
saving you a lot of time and money.

Adapt-A-Ramp LD5000

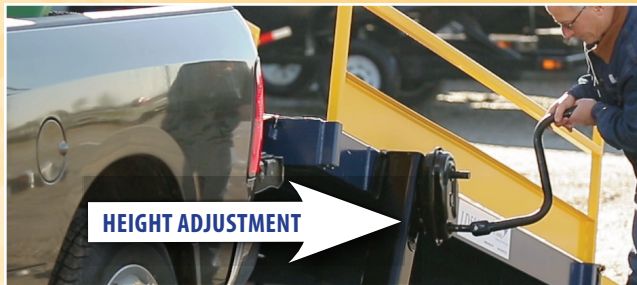

The LD5000 is loaded with safety features built in to help protect workers.

The overlapping lip plate extends onto the truck bed protecting the tailgate.

The built in fork pockets make it easy to move the ramp around with a lift truck or loader.

The two speed adjustable legs make height adjustment fast and easy.

The hinged tail plate improves stability of the ramp on uneven lot surfaces and also exposes the rear fork pockets.

The rubberized lip bottom helps to protect your customers vehicles.

The hand rails improve operator safety and are removable when needed.
